Personal Profile

I am a hard working and extremely self motivated person who is always looking for ways to challenge myself and improve my abilities. I have great communication skills and a keen eye for detail and am happy working in a group or independently. I am looking for a junior front-end developer position in a company that will help me to learn and grow whilst challenging me to step outside of my comfort zone. I believe that I will bring true value to any company.

Previous Employment

Self Employed Decorator

2007 – 2023

I have worked as a painter and decorator since 2007, beginning as an apprentice until I developed my skills enough to set up my own self-employed business, which I ran successfully from 2011 until 2023 when I decided to pursue an alternative career path.

Running my own business helped me to build my abilities in administration and customer service, as well as adhering to strict deadlines and maintaining a consistent quality of work throughout each project. Being an independent tradesperson, I was responsible for managing an open line of communication with clients, including providing quotes and invoices that reflected competitive labour and product prices. As a local business running primarily on recommendation, I recognised the importance of providing a high quality service and retaining an excellent reputation.

Developer Skills

Having quit decorating in December 2022 to study and practice web development full time, I am competent in HTML, CSS, JavaScript and React.js. I have successfully completed courses on basic to advanced JavaScript and React.JS before going on to build my own projects to further improve my skillset.

My skillset includes:

- Writing valid HTML5
- Creating responsive layouts for desktop and mobile applications using CSS
- Writing valid ES7 JavaScript code
- Building functional web apps with React.js
- Using Redux to store and provide data
- Working with Google's Firebase database
- Command Line Interface
- Git and GitHub

Education

Westlands School

2002 – 2007

English Language (GCSE) – C Maths (GCSE) – C Statistics (GCSE) – B
